

WIA NSW Division now trading as:

AMATEUR RADIO N.S.W.

ABN 66 000 012 082

P.O. Box 6044, Dural Delivery Centre NSW 2158

Licence Matters and Study Information (2010)

ARNSW, formerly known as WIA (NSW Division) maintain a very informative website on www.arnsw.org.au also come along to our VK2WI transmitting station any Sunday morning from 10am, for a cuppa and a chat with our broadcast staff.

WIA (National) maintain a website on www.wia.org.au and are publishers of the very popular Australian magazine "Amateur Radio" which is available monthly by subscription or on most news stands.

We highly recommend the excellent internet course available at www.radioelectronicschool.com

The Regulations can be found at ...

www.acma.gov.au/legal/determin/lcd/amateur.htm

The Regulations Question Bank can be found at ...

www.wiavic.org.au/download/regsqb2.pdf

More downloadable information on regulations can be found at the Radio Electronics School. Go to www.radioelectronicschool.com/downloads.html

Scroll down to ...

"Amateur Radio (Australian) Regulations and Operating procedures
(two files self extracting) regulations.exe"

And click on the download button.

The web page for "Super Morse" is www.murrah.com/sm/

However, it is a DOS program and will not run in Windows.

A program that does run in windows is "CW Player".

It is available from the author at <http://rivat.chez.tiscali.fr/logiciel.htm>

ARNSW Exams for FL, Standard and Advanced Licences.

Please contact the office or email us for details of dates and venues. The application form PLUS payment should be lodged at the office by the closing date to ensure booking. (Applications close approximately 2 weeks prior to the exam date.) Application forms are available by mail or from www.arnsw.org.au

For Foundation Licence candidates, we suggest you obtain a copy of the Foundation Licence Manual from us and study it before attending the assessment weekend.
